1 Letter no C 67-30 dt 11-8-33 from the
Secy, Govt - dt forwarding for sanction
an estimate for Rs 28,400 for a scheme of
water supply to Konnam Town

The Secy has stated that half
the cost of the estimate will be met
out of the mil funds and recommends
that the other half may be met
by Govt.

1) As regards the mil fund, a sum of
Rs 12,000 is proposed to be met out of the
deposits kept by the mil in the Govt Savings
Bank, and a sum of Rs 2,000 is proposed to be
raised by public subscriptions.

2) Proposed for the distribution of the water
supply from the current year (Rs 35,000
have been called for from the Govt and
the may be committed in the matter.

2nd

in the Dy. Com, Hassan of stating that
the question of providing water supply from the
Cannery river was under correspondence with the
Ex Engr, Bureau of Survey Engrs.

2/10

7) The estimate for Rs 28 400 does
not include the estate, tools and plant
charges. Of the latter, which amount to Rs 5712,
is added the total estimate will be Rs 33 512.

8) The proposal of the Dy. Health in
such cases is that Govt should contribute one third
of the total cost of the scheme including the tools, tools and plant
charges. On this basis, the amount which the Govt
will have to fund will be Rs 22 340. instead
of Rs 14,200 as now proposed by the Dy. Com. The Dy. Com.
letter shows that the utmost that the
the Council could fund is Rs 14,000 inclusive of the
public subscription of Rs 2000 expected, and it is
doubtful if they can raise eight thousand more.

9) If asked the Dy. Com will be asked to
state if the Govt are ~~prepared to~~
~~be~~ prepared to bear $\frac{2}{3}$ of the cost

As already noted in another file the existing rate of 18 per cent has to be charged in the present case till the existing rules are revised. The financial position of the Municipality has to be examined to see whether it will really be possible for the Municipality to meet the initial charges and the annual maintenance charges. From the records it is seen that public subscriptions are proposed to be raised for meeting the expenditure required for the above work. It is not desirable to sanction the work till (1) the entire share of the Municipality amounting to Rs 14 000/- is actually forthcoming and kept in Savings Bank Account (the Municipality has to collect private subscriptions to make this up) and (2) the Municipality is definitely found capable of bearing the maintenance charges on the above account without interference to its normal activities.

It will be
necessary to collect
of the scheme to
sanctioned

There may not be any difficulty to find funds for the maintenance charges and recommends that the scheme may be sanctioned, half the cost of the initial expenditure being met out of State funds, deducting the sum of Rs 2000 already sanctioned last year, and Rs 3000 sanctioned this year.

37 In view of the above paras 32-33

the notes above

27/10/34

38 Regarding maintenance charges, it is stated that the amount required for this purpose is now calculated by the Sanitary Engineer as Rs 2000 per annum. This, the District Officer, can be easily provided by the M.C. (1) by earmarking Rs 1000 from the revenue and (2) by additional revenue under 'water rate' etc.

39 As regards the sum share of the Capital cost Rs 15,000 it is stated that the balance over Rs 12,131 now available under the M.C. will be met from the closing balance for the current year.

H V RAMASWAMI, Esq, M A, B L,
General Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore

SIR

In forwarding herewith the records received with Konanur Municipal President's report No C 144-33 dated 24-7-1933, re the water supply scheme to Konanur, I have the honour to state as follows

1 The Executive Sanitary Engineer, Bangalore, inspected the town in November 1932 and furnished a plan and 2 estimates, one for the initial expenditure of Rs 28,400/- and another for the recurring expenditure of Rs 2,500/-

761A

2 The plan and the estimates having been sent to the President for furnishing the resolution of the Council as to how they proposed to meet the expenditure, the matter was placed before the Council at their meeting held on ~~18~~ 19-12-32. They proposed certain alterations which increased the initial expenditure to Rs 30,700/ and resolved that this amount may be met as follows -

Rs 10,000/- from Municipal funds, Rs 10,000/- from public subscriptions (as resolved at their meeting held on 23-10-32) and Rs 10700/ from Government and that the annual maintenance charges be met as follows -

Rs 1500/- from the amount realized by giving house connections and Rs 1000/- from out of the yearly income from the standy.

3 As the Council had resolved at their meeting held on 23-10-32 that a sum of Rs 10,000/- would be raised from public subscriptions if the levy of octroi was abolished, their proposal was not considered. As desired by the Council, the Executive Sanitary Engineer, was requested to send a revised estimate, but he replied stating that the

the original estimate was ^{alright} ~~alright~~ a copy of this communication was sent to the President to submit definite proposals in the matter.

4 The matter was placed before the Council at their meeting on 16-5-1933, when they resolved that they are agreeable to the estimate, and that Government may be moved to sanction their quota of contribution. The President reported that half the initial expenditure would be met from Municipal funds, and that a recommendation made to Government, to meet the other half.

5 The records were thereupon returned to the President, stating that the time before which the Municipal quota would be made payable should be definitely stated, and calling for a report as to whether the ratepayers had been consulted in the matter of levying the water rate, and whether, in case a portion of the shandy realization is earmarked for the maintenance charges, it would be possible to take the normal expenditure out of the normal receipts.

6 The President has resubmitted the records with a copy of the resolution of the Municipal Council, passed at their meeting, dated 21-7-1933, stating that a sum of Rs 7276-9-0 is deposited in the Government Savings Bank, that a further sum of Rs 1500/- has been since ~~xxxxxxxx~~ credited to the bank, within a few months, the interest for 32-33 amounting to Rs 300/- would be added on, which would up Rs 9000/-, that by the end of August 1933, a sum of Rs 1000/- would be credited and before January 1934, another sum of Rs 2000/- would be credited, and that the balance of Rs 2000/- would be raised from subscriptions, that the gentlemen whose names have been mentioned in the resolution have promised to pay the amounts noted against them, that as regards the recurring expenditure, a sum of Rs 1000/- would be realised by giving house connections, that the gentlemen whose names are entered in the enclosed list have agreed to have house connections and pay Rs 10/- each, that as already resolved, a sum of Rs 1000/- out of the shandy realizations would be earmarked for meeting a portion of the annual maintenance charges and the balance of Rs 500/- realized by levying water rate. He has also ~~given~~ reported

stated that the rate payers are agreeable to the levy of the water-rate. I have submitted another report, requesting permission to collect public subscriptions, maintain accounts and issue receipts from the municipal office, and I enclose this also for kind perusal.

7 In view of the fact that the Council have already provided about Rs 9000/- and agreed to provide a further sum of Rs 3000/- before the end of January 1934, and also in view of the fact that this will take away almost the whole of their assets, it will be very difficult for them to provide the balance of Rs 2000/- also, and so their request to raise this amount by public subscriptions deserves sympathetic consideration.

8 I request you to be so good as to move the Government to favourably consider the request of the Council re the initial expenditure and sanction a sum of Rs 14,200/- out of State Funds and permit them to collect public subscriptions to make up their quota.

9 As the people of this town are put to considerable water difficulty I recommend that the estimate may be sanctioned early.

I have the honour to be,

Sir,

Your most obedient servant,

H. Chavara

Sir

With reference to the correspondence ending with your letter No C 167-30 dated 17th August 1933 regarding the Water Supply Scheme to Konanur I am directed to state that Government do not consider it desirable to sanction the scheme till (1) the entire share of the Municipality amounting to Rs 14,000 (inclusive of the private subscription of Rs 2,000 to be collected) is actually forthcoming and deposited in the Savings Bank account of the Municipality and (2) the Municipality is definitely found capable of bearing the annual maintenance charges, viz Rs 2,500, without interference to its normal activities. I am accordingly to request you to find out how much money is now actually available with the Municipality for the work and how much has yet to be made up and see that steps are taken immediately to collect the latter. The finances of the Municipality may also be closely examined, and the question of its capacity to bear the annual maintenance charges discussed with the Municipal Council and a report sent up to Government as early as possible.

NOTE

Dated 6th October 1934

159

Development Secretary

A deputation from the Konanur Municipal Council met me at Arkalgud on the 18th September 1934 and urged sanction to their water supply scheme. They stated that Konanur is a big town with a population of over 3000 persons, that a satisfactory water-supply was an important requisite of the town, that the scheme was estimated to cost Rs 28,000/- of which half the amount had already been deposited by them in the Savings Bank and requested that an early start might be made with the work. The Sanitary Engineer stated that the maintenance charges were capable of further reduction, so as to permit of the scheme being taken into consideration. The Deputy Commissioner was of opinion that the Municipality was in a position to meet the annual recurring charges. I have asked him to submit a complete scheme for the consideration of Government.

OFFICE OF THE DEPUTY COMMISSIONER
HASSAN DISTRICT

Dated Hassan the 1st October 1934

By Register

from

H V Ramaswami, Esq, M.A, B.L.,

Deputy Commissioner, Hassan District. 3 OCT 1934

M Venkatanaranappa, Esq, B.A.,

Secretary to the Government of His Highness
the Maharaja of Mysore, Development Department,
Bangalore

With reference to your letter No. L 4974/M 105-33-2 dated
6th January 1934, re the water supply scheme to Konanur town, I
have the honor to state as follows -

As instructed in your above letter, the President, Konanur
Municipal Council was ^{asked} ~~agreed~~ to get the entire share of the Municipality amounting to Rs 14200/- credited to the treasury. He has reported that a sum of Rs 11040/- being the investments of the Council and a sum of Rs 1091/- being the public subscriptions, ~~are~~ in all, Rs 12131/- are available, that the sum of Rs 2000/- being the grant-in-aid sanctioned by Government for water supply last year which had been credited to the treasury is also available, and requests that the scheme may be sanctioned. In his latest report he says that the sum of Rs 2000/- referred to above, may be deducted out of the amount payable by Government viz, Rs 14200/- and that the amount required to make up the Municipal share of the cost would be provided out of the current year's closing balance, and also suggests that some savings might be effected if the work is taken up simultaneously with that at Holenarsipur.

As already reported in my letter, dated 17th August 1933, the Council hope to provide for the recurring expenditure by earmarking a portion of the shandy realizations and levying a flat water rate and by giving house-connections. They have resolved to earmark a sum of Rs 1000/- out of the shandy realizations. I may state that the Sanitary Engineer, who visited Arkalgud on 15th Sept 1934,

has promised to reduce the annual maintenance charges to Rs2000/- The average income from the weekly market being Rs2669/-, it is possible to ear-mark a sum of Rs 1000/- out of this towards the maintenance charges the balance of Rs 1000/- could be made up by house connections and levy of a flat water rate as proposed by the Council

4 the income and expenditure of the Council for the past 4 years under revenue and service heads are as noted in the margin

	Receipts	Expenditure	
30-31	Rs 6220/-	Rs 4886/-	
31-32	4999/-	3480/-	
32-33	6992/-	3197/-	
33-34	8114/-	4316/-	

It may be seen, therefore that the annual normal expenditure is not only within the normal income but is capable of leaving

surplus also at the end of the year

In view of the fact that the Council have at present a sum of Rs 14131/- including the Government grant of Rs 2000/- and since the President is hopeful of making up a sum of Rs 2000/- before the close of the year, and since the Sanitary Engineer has promised to reduce the maintenance charges to Rs2000/-, I think the scheme may be sanctioned I may add that if the proposal of the Council to levy toll submitted to you with this office letter No C 645-32 dated 7th November 1932 is kindly sanctioned, there may not be any difficulty to find funds for the maintenance charges,

to send
the for
him
or
sanction
sanction
letter
by

I request you, therefore to be so good as to obtain the sanction of Government to the estimate and move them to sanction half the cost of the initial expenditure out of state funds, deducting the sum of Rs 2000/- already sanctioned last year, and Rs 3000/- sanctioned in G O No L 2136-43/M1 156-34/17 dated 21st September 1934

Proceedings of the Government of the Maharaja of Mysore

Read -

Letter No C 167-30 dated 17th August 1933 from the Deputy Commissioner, Hassan District, forwarding for sanction an estimate for Rs 28,400 for a scheme of water supply to Honanur town in Hassan District

2 Unofficial Note No C 556-2 dated 4th November 1933 of the Director of Health forwarding a modified abstract estimate for Rs 21,500 for the work including 7½ establishment, tools and plant charges amounting to Rs 1,406/-

3 Further correspondence ending with letter No C 2636-33 dated 1st October 1934 from the Deputy Commissioner, Hassan District on the subject

CW R NO 23657-9/mlc 105334
Dated, Bangalore, the 23rd Nov 34

The estimate for Rs 21,500/- is sanctioned. The cost for stone charges has been taken at 7½ and 2½.

2 The cost of the scheme will be met as follows -

a) Government will bear about 1/3rd of the cost viz, Rs 7,000/- towards this amount, a sum of Rs 2,000/- has been allotted for the work during the past year and a sum of Rs 3,000/- during the current year out of the water supply grant. The balance will be paid next year out of the own Improvement and water supply grants, if possible.

16/2/34

b) The balance of the cost of the estimate viz , P 14,500/- will be met by the municipality, of which a sum of R 12,131/- is immediately available with the Municipal Council and the balance viz , 2,369/- will be met out of the current year's closing balance of the Municipality

3 The annual maintenance charges of the water works are estimated at R 2,000/- and the Municipality propose to meet them from the following sources of revenue -

i) by earmarking Rs 1,000/- from the revenue realised from the snarages

ii) by additional revenue expected under 'water rate' proposed to be levied ^{and} _{by} ¹¹¹⁾ levy of toll

This is approved and the Deputy Commissioner, Hassan District is requested to see that the requisite provision or account of the maintenance charges is made in the budget of the municipality

4 The Director of Health is requested to arrange for the work being taken in hand and finished as early as possible

Collector, Hassan

Extra
Proceedings of the Government of His Highness
the Maharaja of Mysore.

and -

Letter No C.167-X dated 17th June 1931 from the Deputy Commissioner, Hassan District, forwarding for sanction an estimate for Rs. 76,400 for a scheme of water supply to Hassan Town in Hassan District.

The total cost for C.167-X dated 4th November 1931 of the Director of Health for a long notified abstract estimate for Rs. 1,00,000 for the work including $7\frac{1}{2}\%$ establishment, tools and plant charges amounting to Rs. 1,400/-

3. Further for information ending with letter No. C.1630-34 dated 11th October 1934 from the Deputy Commissioner, Hassan District on the subject

Order No 3687-9/mc 105-33-4

Dated, Hassan, the 23rd November 1934

The estimate for Rs. 11,500/- is sanctioned, the establishment and tools and plant charges being taken at $7\frac{1}{2}\%$ as a special case.
2 The cost of the works will be met as follows :-

(a) Government will bear about $1/3$ rd of the cost viz., Rs. 7,000/- towards this amount, a sum of Rs. 2,000/- has been allotted for the work during the past year and a sum of Rs. 3,000/- during the current year out of the water supply grant. The balance will be paid next year out of the 1st, 2nd and 3rd water supply grants, if possible.

(b) The balance of the cost of the estimate viz., Rs. 11,500/- will be met by the Municipality, of which a sum of Rs. 18,131/- is immediately available with the Municipal Council and the balance viz., Rs. 2,369/- will be met out of the current year's closing balance of the Municipality.

3. The annual maintenance charges of the water works are estimated at Rs. 2,000/- and the Municipality propose to meet them

for

from the following sources of Revenue :-

- (i) by earmarking Rs.1,000/- from the revenue realised from the shandies;
- (ii) by additional revenue expected under 'water rate' proposed to be levied, and
- (iii) by levy of toll.

This is approved and the Deputy Commissioner, Hassan District, is requested to see that the requisite provision on account of the maintenance charge is made in the budget of the Municipality.

4. The Director of Health is requested to arrange for the work being taken in hand and finished as early as possible.

Ajmal Singh
